

PREDICT AND PLAN ACCURATELY WITH COMPREHENSIVE IT INSIGHTS

Flexera's unique and patented capabilities enable situational awareness around technology investments, costs and security risks so you can predict and plan more accurately. Our clients gain technology investment intelligence powered by the world's largest, most accurate and up-to-date repository of enriched software and hardware data available: Flexera's Technopedia®.

WE AUTOMATE IT ASSET MANAGEMENT

Discovery and inventory

Normalization

Compliance and reuse

Optimization

- Automate support for software audits
- Take advantage of in-depth information on 16,000+ software products
- Utilize a SKU library of one million+ software part numbers
- Interoperate with third-party platforms, such as ServiceNow
- A recognized market leader by Gartner and Forrester

WE OPTIMIZE YOUR SOFTWARE LICENSE ESTATE

Automatically reconcile purchased licenses with installed licenses to generate a license compliance position. Flexera helps agencies understand their actual needs for concurrent-use software applications.

Flexera gives you the ability to maintain an extensive product use rights library for:

Manage and optimize complex license models such as:

- Oracle Named User Plus
- Oracle Processor
- Oracle Middleware
- Microsoft Corel
- IBM RVU
- BM PVU

WE DELIVER SIGNIFICANT ROI*

40%

reduction in vulnerable, obsolete software (U.S. Department of Energy)

35%

reduction in vulnerable, obsolete hardware (U.S. Department of Energy)

25-40%

better terms on software licensing (by moving from multiple local licenses to negotiating bulk licenses)

\$10 million+
